SUMMARY

Motivated Full- Stack Developer with an engineering background and 4+ years in PV system design. GoIT graduate. I build responsive web apps with React/Next.js and Node.js, integrate REST APIs, and write maintainable code. Comfortable with Scrum and meticulous about UI/UX details.

SKILLS

- Frontend: HTML5, CSS3 (Flexbox, Grid), Responsive, SASS
- JavaScript/TypeScript: ES6+, TypeScript, React, Redux Toolkit, React Router, Next.js
- Server & DB: Node.js, Express, MongoDB (CRUD, basic auth)
- APIs & Libraries: REST API, Axios, JSON, TanStack Query, Formik
- Tooling: Vite, npm, Git/GitHub, ESLint, Prettier, Figma
- Practices: Scrum, code reviews, accessibility mindset
